PREVENT: SEXUAL & GENDER BASED VIOLENCE WORKSHOP

Enseignant(s) / Teacher(s):

Dr Choralyne DUMESNIL (Esq.)
choralyne@cdumesnil.com
13 rue La Boétie, 75008 Paris
PhD, Attorney at Law Paris & California
www.cdumesnil.com

Durée (en heures) **/ Duration** (in hours): 3h30

Nombre de crédits ECTS / Number of ECTS credits: 0.25

Niveau / Education Level	Période / Period	Langue d'enseignement / Language of instruction	Effectif max / Max. class size	Mode / Teaching Mode
M2 & MS & MsC	S2	English	40	In-Person

Prérequis / Prerequisites: (in particular, for level 2, if a level 1 is required, please indicate it) NA

SYNOPSIS / OVERVIEW

Since 2017, sexual and gender-based violence has received unprecedented media attention. While such violence has long been widespread, recent global movements have led to greater accountability and reduced tolerance. High-profile cases have further exposed how abuses can continue for years in spite of victim's whistleblowers and formal complaints and legal proceedings.

In response, most schools, universities, corporate partners of HEC and leading global companies have adopted strong anti-harassment frameworks aimed at ensuring the safety and dignity of all employees. However, research and recent events alike demonstrate that organizational culture, leadership accountability, and individual awareness are critical to creating genuinely safe and respectful environments. Evidence also suggests that workplaces free from harassment and hostility are not only more ethical, but also more innovative, resilient, and financially sustainable.

For a top school like HEC, providing prevention program on sexual and gender-based violence is of the utmost importance in order to educate tomorrow's leaders to the challenges posed by increasingly diverse workplaces and societies.

This workshop provides students with three essential tools:
(1) a framework to identify and clearly name sex and gender-based violence, including subtle and systemic forms;
(2) practical guidelines to prevent, respond to, and mitigate such situations, including bystander intervention and reporting mechanisms;
(3) a critical understanding of key concepts underpinning regulations and policies, such as consent, coercion, and abuse of authority.

Throughout the course, students will be required to prepare and present a case study based on real-world events, encouraging them to analyze not only individual behavior but also the broader institutional and cultural contexts that allow such misconduct to occur.

OBJECTIFS PEDAGOGIQUES / LEARNING OUTCOMES

1. Understand the experience of the victims
2. Identify the challenges faced by the perpetrators
3. Grasp the situation schools, employers, judges, attorneys face
4. Learn to prevent, react, protect, mitigate consequences

N.B. Neither the materials nor the discussions in class require any prior knowledge of the subject.

DESCRIPTION DETAILLEE / DETAILED DESCRIPTION

Thèmes-clés / Key Topics:

1/ Internationalism: Acquiring an advanced understanding of the implications of consent in societies characterized by pluralism and heterogeneity

2/ Business Embeddedness: Developing advanced management skills necessary to effectively lead organizations in today's globalized business environment

3/ Responsible Citizenship: Learning to have conversations about consent in an appropriate manner

4/ Reflective Critical Thinking: Offering a scientifically grounded analysis of the current issues surrounding prevention of sexual harassment in a corporate setting

5/ Comprehensive Leadership: Fostering a critical awareness of the some key socio-political issues faced by today's business leaders

Organisation du cours – plan détaillé / Course organization – detailed outline:

The course consists of 1 session of 4 hours.

- Trauma informed practice
- Reminder on rules for a debate in a culturally diverse setting
- Case study in group (4 students): Cases with Guidelines to prepare oral arguments
- Moot court to address: consent, rape, sexual harassment, sexual assault, domestic violence (across sexes and genders)
- Focus on: how to prevent, react, mitigate consequences (victims, witnesses, accused person, organizations)
- Procedures: criminal, civil, administrative (disciplinary process)
- Deconstructing Stereotypes

Contenus ESG / ESG-related Content:

Environmental-related content	Social-related content	Governance-related content
1. Minimal content	4. Extensive content	4. Extensive content

Objectifs de compétences / Competency Goals:

Transformative Management	Innovative Thinking & Problem Solving	Positive Leadership	Sustainable Business Practices

MATERIEL PEDAGOGIQUE / TEACHING MATERIALS

- Case study & legal references will be provided in class
- List of resources provided for students

METHODES PEDAGOGIQUES / TEACHING METHODS

The session is structured to host small scale moot court that students prepare in class in group with the help of the Speaker.

Students will be offered to decide to be one of the following:

- Clerk: provide factual information on the case to the class
- Victim's attorney: describes the experience of the victims, defines the facts, asks for compensation & protection
- Defense attorney: defends the perpetrator, defines the fact, asks for acquittal
- Journalist: takes a step back, identifies what could/should have happened differently to prevent the facts

TRAVAUX ET ÉVALUATIONS / COURSEWORK & EVALUATIONS

(Please detail the requested work and summarize grading principles in the proposed table)

BIOGRAPHIE(S) / BIOGRAPHY

A graduate from Sciences po Paris Law School (PhD), exchange student at Harvard Law School (2012) and at Jawaharlal Nehru University (2008), Choralyne Dumesnil is an attorney at law licensed to practice law in Paris and in California. She has taught in Paris since 2014 for a NGO to prevent sexual and gender based violence. She has created a course on “sexual violence in international case law” taught at Paris Sciences et Lettres (2015-2018). Currently, she represents clients victims of domestic and sexual violence including rape, incest, sexual assault, sexual harassment in France and in California. Her fields of expertise include: international law, international family law, intellectual property law, criminal law, civil law (damages), rape law, domestic violence law, sexual assault law etc. At HEC, she has trained students in order to prevent sexual harassment since 2021.

PLANNING / SCHEDULE * **MBA only*

- 4 hours

The course consists of 1 session of 4 hours.

- Trauma informed practice
- Reminder on rules for a debate in a culturally diverse setting
- Case study in group (4 students): Cases with Guidelines to prepare oral arguments
- Moot court to address: consent, rape, sexual harassment, sexual assault, domestic violence (across sexes and genders)

- Deconstructing Stereotypes

Strategic Compliance and Economic warfare

Teacher(s): Frédéric PIERUCCI

Duration (in hours): 4h **Number of ECTS credits**: 0.25

Education Level	Period	Language of instruction	Max. Staffing	Teaching Mode
M2 & MS & MsC & MAS	S2	English	54	IN-PERSON

Deanship Department: Choisissez un élément. **Domain :** Choisissez un élément.

Track (within a master):

Course family (Module d'Acquisition de Compétences, asked by French CEFDG - *optional* - Examples: financial communication; ESG…)):

Keywords (maximum 5, for website):

GEOPOLITICS Choisissez un élément. ECONOMICS Choisissez un élément. Choisissez un élément.

If not in the lists: Compliance, Lawfare, Economic Intelligence

SYNOPSIS

In a world of economic warfare, explain how economic intelligence and lawfare can play a crucial role

DETAILED DESCRIPTION

Prerequisites: Good understanding of geopolitics would be a plus

Course overview (executive summary):

1.Genesis and objectives of treaties and laws for combating business crime

What are the objectives of international organizations and states? What mandates are given to supervisory authorities and how do they use them? What levers do they use (de-listing, seizure of property in the country, arrest of leaders, sanctions, embargoes…)? Real fight against business crime or economic war: how to decode?

Overview of the main international texts and laws governing the fight against corruption:

- The American Foreign Corrupt Practice Act -1977

- The OECD-1998 "Convention on Combating Bribery of Foreign Public Officials in International Business Transactions"

- The UK Bribery Act-2010

- The French "Sapin 2" law-2016

- Other laws

Focus on the FCPA:

- History of the FCPA

- Analysis of sanctions

What are the indicators? Are they showing progress? How do companies position themselves in this approach? What is the influence of NGOs, whistleblowers and rating agencies?

Principal Items:

FCPA , Lawfare, Compliance, Sapin 2, Corruption,

2.Understand the economic and strategic issues and the levers of these policies to adapt a compliance policy to the company's exposure

- How did the power of the judicial authorities, and its dependence on the executive, develop to make the fight against corruption an effective weapon of war? Understand interactions at all levels of the U.S. government between government and government companies.

-Extraterritoriality

- Criminal liability of directors and executives

- Negotiated justice: PA/DPA/NPA: a major upheaval in French law and practice

- What makes it possible to destabilize a company?

- Monitoring after conviction

- The case of the United States, fully mobilized to deploy American policy. The emergence of policies from other countries

3. Understand how these laws can be used for economic warfare

- Emblematic case study

Pedagogical Objectives:

1.Between the fight against business crime to limit its effects and economic warfare, Understanding the genesis and development of the various treaties, laws and texts on the fight against corruption

2.Understand the economic and strategic issues and the levers of these policies to adapt a compliance policy to the particularities of the company

3. Understand how these laws can be used for the purpose of economic warfare

Skills:

Course organization - detailed outline:

Session 1: – Alstom case study

FCPA enforcement analysis

Session 2: - Business impact and destabilisation: the hidden costs of non-compliance

Executives civil and criminal liability with regard to the Sapin 2 Law and FCPA

Enforcements : sectoral analysis and case presentation

BIOGRAPHY

Frédéric Pierucci (MSc ENSMA, MBA Columbia Business School) is a former ALSTOM executive with extensive international experience having lived and worked in China, the United States, Algeria, the United Kingdom, Singapore and France.

In particular, he was Global Sales Manager for the "Steam Power Plants" division, in charge of negotiating major international contracts for the supply of power plants.

In 2015, Frédéic created IKARIAN, a consulting firm whose purpose is to assist and advise his clients on the challenges that companies and their managers face in complying with the Foreign Corruption Practice Act (FCPA), the UK Bribery Act (UKBA), the "Sapin 2" law and other anti-corruption laws or standards such as ISO 37001.

Frédéric is the author, with journalist Matthieu Aron, of the bestseller "The American Trap" (Editions JC Lattès, January 2019), winner of the "Prix littéraire des Nouveaux Droits de l'Homme 2019", translated into English under the title "The American trap" (Hodder & Stoughton, November 2019).

Frédéric is one of the founding members of the Observatoire de l'Intelligence Économique Français (OIEF).

WAIVER POLICY

MASTERING AND NAVIGATING BUSINESS PROJECTS (BP)

Teacher(s): Dr. Nils Plambeck

Duration (in hours): 8h

Education Level	Period	Language of instruction	Max. Staffing	Teaching Mode
M2 & MS & MsC & MAS	S2	English		IN-PERSON

Deanship Department: SPE **Domain:** STRATEGY, MANAGEMENT, MARKETING

Track (within a master):

Course family (Module d'Acquisition de Compétences, asked by French CEFDG - *optional* - Examples: financial communication; ESG…)):

Keywords (maximum 5, for website):

STRATEGY MANAGEMENT COMMUNICATION ORGANIZATION Choisissez un élément.

If not in the lists: Leaderless group discussions, teamwork, conflict resolution

SYNOPSIS

Through an interactive workshop we want to prepare for the Business projects, allowing you to have fruitful discussions with the organizations sponsoring the BPs.

DETAILED DESCRIPTION

Prerequisites:

First reflections about BP topic

Course overview (executive summary):

The workshop is aimed at helping students to review the knowledge and skills they will need to successfully work on their BP.

Principal Items:

Reciprocity ring (pay-it forward principle, build community)

Flawless Consulting (Block, 2011)

Cross-cultural communication and interpersonal differences

Conflict management

Develop first ideas about the BP: development, initiation, performance, and closure

Pedagogical Objectives:

Students will be well-equipped to hit the ground running for the interaction with the organizations associated with each Business Project. Thus, the workshop will help them be further prepared to

- Developing actionable recommendations for project implementation
- Developing a productive, collaborative approach and relationship to create an inspiring environment and learning experience within the organization
- Fostering great team dynamics within a multicultural environment driving diversity and inclusion ethical conduct

Skills:

Better use of key strategy frameworks

Work productively and effectively together

Course organization - detailed outline:

After short lectures, students will engage in group discussions and experiential exercises, followed by a debrief in small group and in plenum.

TEACHING MATERIALS

Books:

Digital Resources:

Further reading materials will be shared on blackboard.

TEACHING METHODS

Short lectures, experiential exercises, intensive group work, short presentations

BIOGRAPHY

Dr. Nils Plambeck is an Associate Professor at HEC Paris. Between Nov. 2016 – August 2019, he was the academic dean and CEO of HEC Paris in Qatar. Prior to joining HEC Paris in 2004, he obtained his doctoral degree from the University of Hamburg, along with a Diploma in business administration with a focus on strategy and sociology.

At HEC Paris, he taught in the Grande Ecole, MBA, Executive MBA, and executive education programs. During the last years, he has taught power and influence, business strategy and change management in a large variety of programs from the Grande Ecole to senior executive development programs in different industries such agriculture, banking, consumer goods, energy, healthcare, pulp & paper in countries such as France, Italy, Oman, Qatar, Russia, U.A.E., and the U.K.

Dr. Plambeck was responsible for the core strategy course at the HEC Grande Ecole, and shared responsibility for the strategy implementation courses at the Executive MBA, he was also the academic director for the Master in Strategic Management at HEC Paris in2015/16.

His primary research interests concern the determinants and consequences of top managers' cognition. He addresses questions of how CEOs' cognitive processes influence strategic change and firm's actions such as product innovations. His published research has appeared in Journal of Business Venturing, Organization Science, and Strategic Management Journal.

In recent years, he has begun to study trust, trustworthiness, and the relationship with power.

In parallel, Nils is developing research on how CEOs become celebrities, how the public might lose interest, or what might trigger infamy.

WAIVER POLICY

CEMS Policy will be be applied.

CEMS Global Citizenship Seminar: Hacking the SDGs with a BHR lens

Teacher(s): Charles AUTHEMAN + guests

Duration (in hours): 16h

Number of ECTS credits: 1

Education Level	Period	Language of instruction	Max. class size	Teaching Mode
M2 & MS & MsC	S2	English	n/a	In-Person

Prerequisites: None

SYNOPSIS / OVERVIEW

Business and human rights (BHR) issues are deeply embedded in the SDG frameworks. By advancing responsible business conduct, private and public actors can actively participate in the realization of the 2030 agenda. Over two days, students will receive guidance and tools to explore concrete challenges based on real cases. They will then work to "hack" the cases spanning across five streams: fishing, extractives, responsible AI, just transition and garment. In teams of four, students will present their pitches at the end of the seminar and participate in assessing the relevance, feasibility, and economic viability of each proposal.

The seminar is inspired by the NextGen BHR hackathon developed by HEC and partners in the context of the UN Responsible Business and Human Rights Forum.

LEARNING OUTCOMES

1. Discover the BHR framework, its relevance for business practitioners and key components of the BHR toolbox.

2. Learn how to unpack concrete BHR tensions within different industries, exploring complex tradeoffs and tensions between competing priorities.

3. Develop skills, notably through teamwork, and foster a solution-oriented mindset regarding the achievement of the SDGs.

At the end of the seminar, students will know how to identify, prevent, mitigate, and remedy, a #BHR issue. They will also enhance CEMS competencies, through the hackathon cases:

- International business competencies: cases are based on global conundrums.
- Ethical, responsible, and inclusive citizens: cases include a social sustainability lens.
- Reflective and resilient leaders: cases require to challenge the status quo.
- Data and business technology advocates: cases include figures, metrics and estimates.
- Business transformation drivers: cases entail transformative approaches considering all stakeholders.
- Evidence based innovative problem-solvers: cases demand creativity, curiosity and an entrepreneurial spirit.

DESCRIPTION DETAILLEE / DETAILED DESCRIPTION

Key Topics: International law, CSR, finance, supply chains, compliance

Course organization – detailed outline:

Day #1:

The BHR framework: historical approach and toolbox (morning)

Presentation by Charles Autheman and conversation with a human rights officer

Exploring concrete SDG-BHR cases and introduction to the hackathon (afternoon)

a. Forced labour and industrial fishing (SDG 2, SDG 8, SDG12, SDG 14)
b. Child labour and artisanal mining (SDG 7, SDG 8, SDG 13)
c. Responsible AI (SDG 8, SDG 9, SDG 10, SDG 16, SDG 17)
d. Just transition and indigenous peoples' rights (SDG 7, SDG 10, SDG 13, SDG 16)
e. Heat stress in the garment industry (SDG 3, SDG 5, SDG 8, SDG 13).

Presentation by Charles Autheman and guests

At the end of Day 1, participants are split in teams of 4 and assigned one of the five hackathon streams.

Day #2:

Hacking the SDGs with a BHR lens (morning)

Students work on hacking their SDG in small groups.

They receive guidance and support from professionals and researchers working in each stream.

Final presentations and debrief (afternoon)

Teams present their solutions to the rest of the class. Apart from presentations in their own streams, students are invited to partake in the critical analysis of each presentation.

The seminar ends with a final debrief by Charles Autheman

ESG-related Content:

Environmental-related content	Social-related content	Governance-related content
3. Significant content	4. Extensive content	3. Significant content

METHODES PEDAGOGIQUES / TEACHING METHODS

(Examples – please indicate the most representative: presentation and discussion, calculation exercise, role play, case study in sub-group or in class, flipped classroom, video production...)

The seminar is designed as an interactive activity dotted with lectures, briefings and mentorship. Students will be invited to participate actively in all aspects of the two days and will have the possibility to engage in team work during the second day.

COURSEWORK & EVALUATIONS

Work requested: Students will be asked to participate in the conversation on Day #1, work with their team on hacking the case during the morning of Day #2, pitch their solution and participate in the critical analysis of other presentations on the afternoon of Day #2.

BIOGRAPHIE(S) / BIOGRAPHY

Charles Autheman is a fellow of HEC Institute and teaches business and human rights at HEC. He works as a consultant for the International Labor Organization and other UN agencies on human and labor rights related issues. He is a former HEC and Sciences Po Paris alumnus and a member of the Global Business School Network for BHR where he leads the "supply chains and modern slavery" research cluster.

An introduction to Worlds

Seeing Strategy Beyond Markets

Field	Details	Field	Details
Teacher	Charlotte Vangsgaard, Sandra Cariglio, Ulysse Demonio	**Duration**	3 hours, one session
Language	English	**Education level**	Pre-experience Master
Period	To be confirmed	**Teaching mode**	In person

Prerequisites

No formal prerequisites are required. The seminar is intended for students interested in strategy, marketing, innovation, entrepreneurship or the social sciences. Curiosity about how culture shapes business is more important than prior technical knowledge.

Synopsis / Overview

Why do some organisations see opportunities that their competitors miss or fail to act on? Despite unprecedented amounts of data, businesses often struggle to understand people in context. Demographic, psychographic and behavioural segmentation can reveal useful patterns, but each isolates a narrow set of measurable traits and behaviours from the wider fabric that gives them meaning.

A sports footwear company is not only competing in the footwear category; a new drug's success does not depend only on whether it works for an identified medical condition; and new parents are not simply a target group. Companies and their products operate in worlds: evolving ecosystems of people, organisations, practices, technologies and institutions, held together by ideas, norms and shared assumptions. Understanding these worlds helps organisations see why behaviours cluster, which adjacent needs emerge and how behaviour may shift as a world evolves, enabling sharper insights, segmentation models and strategies.

In this seminar, students will learn how ReD uses the social sciences and the Worlds approach to help clients make sharper business choices. They will be introduced to the main concepts and practices involved in applying social-science methods to business problems. Using contemporary cases, they will map a world, identify its dimensions, and explore how an organisation can participate credibly within it. Students will leave able to recognise when a Worlds approach is useful, apply it to a business problem and translate a richer understanding of human behaviour into a focused strategic hypothesis.

Learning Outcomes

At the end of the seminar, students will be able to:

- Distinguish a world from a market, industry, category, community and consumer segment.
- Apply social-science and human-centred approaches to research and analyse business problems.
- Translate a world-level insight into a focused strategic hypothesis about where an organisation could play, what role it could adopt and how it might create value.

DETAILED DESCRIPTION

Key Topics

Despite unprecedented amounts of data, businesses often struggle to understand people in context. Demographic, psychographic and behavioural segmentation can each reveal useful patterns, but they tend to isolate measurable traits and behaviours from the wider fabric of **human experience** that gives them meaning.

Social sciences for business and the **Worlds** approach help businesses understand people more deeply. By studying evolving ecosystems that cut across conventional forms of segmentation, Worlds make sense of the relationships among people, organisations, practices, technologies and institutions, as well as the ideas and norms that hold them together. Understanding a world shows companies which behaviours cluster together, which adjacent needs emerge and how behaviour may shift as the world evolves, all of which can inform sharper segmentation models, **insights** and **strategies**.

The goal of this seminar is to make students confident in recognising when a Worlds approach is useful, how to apply it, and how to translate a richer understanding of human behaviour into sharper business choices. It will address and be structured around the following key concepts:

- **Social sciences for business:** Applying social-science methods to research, analyse and solve business problems.
- **Human experience**: Using human experience as the grounding lens through which to understand people.
- **Worlds:** Bounded systems of shared meaning that cut across traditional industry silos and static demographic segments. A world encompasses both visible, formal or observable dimensions and invisible, tacit or underlying dimensions.
- **Insights:** Fundamentally new ways to interpret a finding or situation, revealing new ideas that represent sizeable opportunities for a client.
- **Strategy:** The cascade of integrated choices every company explicitly or implicitly makes to win.

Session Plan

Block	Core question	Format
Introduction to social sciences and worlds	What becomes visible when we stop treating a familiar arena as only a market?	Opening examples and objectives of the seminar
Concept: What is a world?	How is a world different from a market, segment, ecosystem or community?	Short lecture with comparative examples
Researching a world	How do you study worlds and their components? How and what data do you gather?	Use-case examples
Break	—	—
World-mapping workshop	What actors, meanings, practices and structures hold this world together?	Small-group mapping using a case evidence pack
From world to strategy	Where could an organisation play, what role could it take, and how might it create value?	Teams develop and challenge a strategic hypothesis using available data
Synthesis	When and how do you apply a Worlds approach?	Individual reflection and closing discussion

ESG-related Content

Dimension	Contribution	Application

Environmental	1 – Minimal	May arise in selected examples and discussion of externalities.
Social	3 – Significant	Culture, identity, communities, inclusion, social meaning and stakeholder perspectives are central.
Governance	2 – Moderate	Power, rules, legitimacy, ethics and responsible participation are discussed.

Competency Goals

HEC competency	Contribution	Application
Transformative Management	4 – Extensive	Integrating social and cultural context into strategic, sized, choices.
Innovative Thinking & Problem Solving	4 – Extensive	Reframing familiar challenges and generating less obvious strategic options.
Positive Leadership	3 – Significant	Constructive peer challenge and stakeholder awareness.
Sustainable Business Practices	2 – Moderate	Considering legitimacy, externalities and responsible value creation.

Teaching Materials

The session will use an instructor presentation, use-case examples, and a world-mapping template. Examples may draw on approved or anonymised material from ReD.

Teaching Methods

The course will combine lecture-based and discussion-led teaching, using cases to learn and apply the Worlds approach.

Coursework & Evaluation

ReD assumes that no formal grade is required. ReD can offer formative feedback on students' world maps and strategic hypotheses.

If HEC requires a formal grade, the proposed evaluation is intentionally light and focused on applying the framework during and immediately after the seminar.

Method	Format	What is assessed	Weight
World map and strategic hypothesis	Small group, produced in class	Clarity of the world boundary; systemic quality of the map; use of evidence; coherence and originality of the strategic hypothesis.	60%
Individual exit note	Individual, 300–400 words after class	Ability to explain the Worlds lens, state one insight, and identify an implication or limitation.	40%

Alternative for a Non-Credit Seminar

If no formal grade is required, the same activities can be used for formative feedback only: teams receive live feedback on their world map and strategic hypothesis, and the exit note becomes an ungraded personal synthesis.

Biography

Charlotte Vangsgaard. Charlotte is Senior Partner at ReD Associates. Based in Paris, she has spearheaded ReD's expansion across Copenhagen, New York, and Paris, advising leadership teams at global organizations. With a background in political science, social theory, and international business (MBA), as well as earlier career work with the United Nations Development Programme (UNDP), Charlotte brings extensive experience in systemic cultural mapping, organisational transformation, and market evolution.

Sandra Cariglio. Sandra is a Partner at ReD Associates, and a trusted advisor to some of the world's most iconic luxury, consumer, retail and media companies. She specialises in using deep cultural research to help brands anticipate social and cultural shifts and translate them into strategy, from brand positioning to product innovation. Her work spans Europe, the US and Asia. Sandra holds a degree in philosophy and political science from Columbia University.

Ulysse Demonio. Ulysse Demonio is a senior consultant at ReD Associates. At ReD he has worked across sectors, covering medtech, consumer goods, and philanthropy. He brings experience of working with qualitative data, understanding how broad human and organisational aspirations shape behaviours and inform insights and strategy.

Estimated Workload

Activity	Estimated time
Optional short pre-read	90 minutes
In-class seminar	3 hours
Individual exit note, if graded	45–60 minutes
Estimated total	5 hours 15 minutes–5 hours 30 minutes

PRACTICAL NEGOTIATION SKILLS SEMINAR

Enseignant(s) / Teacher(s): Marc ROBERT (Project Director, Halifax Managing Partner) or Xavier Lorenzo (Halifax Expert Consultant) — one consultant per group of 10–12 students

Durée (en heures) / Duration (in hours): 8h total — 2+1h digital learning + 4h in-class seminar + 1h individual coaching, including preparation

Nombre de crédits ECTS / Number of ECTS credits: 0.5

M2 & MS & MSc & MAS	S2	English	12	Blended

Prérequis / Prerequisites: None

SYNOPSIS / OVERVIEW

Fundamentals of negotiation techniques in the context of a B2B commercial relationship.

OBJECTIFS PEDAGOGIQUES / LEARNING OUTCOMES

Prepare and conduct a commercial negotiation using easy-to-remember, structured reference techniques. The course focuses on developing practical negotiation skills. See below "Skills".

Skills:

- Prepare a negotiation: set initial/minimum/ target position, arguments, concessions & concessions in return…
- Adopt winning attitudes in the context of a B2B negotiation: identify and counterbalance power attitudes
- **D**efend his/her initial position
- **E**nsure the customer commits, before to exchange concessions
- **A**dvance through mutual concessions
- **L**imit the efforts and close the deal

DESCRIPTION DETAILLEE / DETAILED DESCRIPTION

Thèmes-clés / Key Topics: Negotiation preparation (initial, target and minimum positions; arguments; power attitudes); conduct a negotiation (defense of the initial position, customer commitment, mutual concessions; concessions in return; closing the deal…)

Organisation du cours – plan détaillé / Course organization – detailed outline:

1. Interactive digital learning: six modules presenting the DEAL Method®, based on videos of negotiations, questions and a final quiz (2h).
2. In-class seminar: an initial buyer–seller role play in pairs, debriefing and an interactive review of the DEAL Method®; a final two-round role play involving two competing sales teams and two to three students acting as buyers (4h).
3. Negotiation technique reinforcement through the "Serious DEAL" digital serious game: four 15-minute plays (1h).
4. Preparation of a mock commercial negotiation, in autonomy, using the course checkpoint template (30 min).
5. Individual role play and coaching by video meeting: a 20-minute negotiation with the consultant acting as the customer, followed by a 10-minute debrief; formalised personal feedback is provided within 24 hours (30 min session overall).

Contenus ESG / ESG-related Content:

Environmental-related content	Social-related content	Governance-related content
No	Yes	No

Objectifs de compétences / Competency Goals:

Transformative Management	Innovative Thinking & Problem Solving	Positive Leadership	Sustainable Business Practices
No	Yes	Yes	No

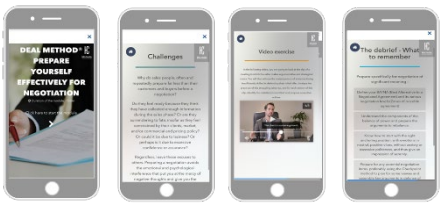

MATERIEL PEDAGOGIQUE / TEACHING MATERIALS

Reference sheets are available within the digital-learning course. Core techniques covered during the in-class seminar are summarised in a PDF document sent to students after the class. No specific textbook is required.

Digital resources: The DEAL Method® negotiation fundamentals (2h) and the "Serious DEAL" negotiation serious game (1h), built into the course.

METHODES PEDAGOGIQUES / TEACHING METHODS

_ 6 Digital learning modules presenting the DEAL Method®, each based on 1 video of an actual negotiation -played by actors, regularly interrupted by a series of questions + one final quiz (2 hours altogether)

_ In class seminar: One initial individual role-play by pairs (1 buyer negotiating with 1 seller), then debrief to infer key negotiation analytical elements. Then, interactive refresh on the key points of the DEAL method®
Final 2h role play with 2 competing sales teams negotiating in 2 rounds with 2 to 3 students playing the buyers. Eventually, debrief on this final role-play: negotiation technique take-aways from it.

_ 1 serious game on negotiation “Serious DEAL”, based on the DEAL techniques: 4 plays, each lasting 15 minutes

_ Final individual role play:
First, as a homework, each student prepares the commercial negotiation using the “checkpoint” template used in the course.
Second, during the 30 min role play sequence, the student conducts the negotiation for 20 minutes, the consultant acting as the buying customer. The student is then debriefed by the consultant (10 minutes). Within 24h after the role play, the student gets the formalized debrief (mark on a scale of 1 to 5 on a list of 15 specific competencies + personal qualitative points of strength and points to be progressed

TRAVAUX ET ÉVALUATIONS / COURSEWORK & EVALUATIONS

Students must complete both digital-learning activities and the quiz, participate actively in the 4-hour seminar, and prepare for and complete the final individual role play.

Outil/support/mode d’évaluation **Tool/method of evaluation**	**Durée et format** **Duration**	**Pondération dans la notation finale** **Weight in the final grading**
Digital learning activities and quiz: completed / not completed	3h	N/A
In-class seminar: present / not present	4h	N/A
Final role play: assessment of 15 negotiation competencies	30 min preparation + 30 min actual role play	N/A

Précisions complémentaires / Additional details:

- The digital-learning quiz is non-eliminatory.
- The final role-play formalized feedback assesses 15 specific negotiation competencies on a 1-to-5 scale. It also includes a qualitative note on the student strengths and development points, related to the role play.

Deanship Department: Pre-Experience Program

Domain: Strategy

Track (within a master): CEMS

Course family: CEMS Skills Seminars

Keywords (maximum 5, for website):

#LinkedInStrategy #CareerDesign #SmartNetworking #PersonalBranding #HiddenJobMarket

SYNOPSIS / OVERVIEW

This seminar provides a structured approach to leveraging LinkedIn as a strategic tool for career development. Students will learn how to identify relevant professional pathways, optimize their digital presence, establish meaningful connections, and gather insights to support informed decisions throughout the job search process. Through a focus on LinkedIn, the course integrates core themes such as career planning, networking, and interview preparation.

OBJECTIFS PEDAGOGIQUES / LEARNING OUTCOMES

1. Optimize a LinkedIn profile to align with strategic career objectives and industry expectations.

2. Analyze professional trajectories on LinkedIn to identify role patterns, organizational structures, and sector-specific career paths.

3. Develop and apply advanced networking strategies to initiate, manage, and sustain meaningful professional interactions.

4. Leverage LinkedIn insights to prepare for tailored interviews and build informed, opportunity-driven application strategies.

DESCRIPTION DETAILLEE / DETAILED DESCRIPTION

Thèmes-clés / Key Topics:

1. Profile Optimization
2. Career Planning
3. Strategic Networking
4. Interview Preparation

Organisation du cours – plan détaillé / Course organization – detailed outline:

This course is specifically designed for CEMS students pursuing careers in consulting, investment banking, technology, or other competitive and international sectors.

It addresses the specific needs of highly motivated individuals preparing to enter fast-paced, high-performance environments where differentiation, clarity of purpose, and strategic positioning are essential.

Students are expected to arrive with a basic LinkedIn presence already in place. This seminar does cover introductory profile setup but mainly focuses instead on strategic optimization, advanced search, and intelligence-driven career planning.

The course explores how LinkedIn can be used as a comprehensive platform for career advancement, professional positioning, and market intelligence. The curriculum is structured around four key focus areas:

1. Profile Optimization

Students will learn how to audit and reposition an existing LinkedIn profile for competitive differentiation, with a focus on how recruiters in consulting, banking, and technology actually read and filter profiles at scale.

2. Career Planning

LinkedIn will be introduced as a research tool to analyze the career paths of professionals across industries. Students will learn how to identify trends, understand role progression, and assess the organizational structure of companies. These insights will support the design of individual career strategies based on real-world trajectories.

3. Strategic Networking

The course will cover advanced LinkedIn search techniques to identify relevant professionals, maximize response rates, and initiate meaningful conversations. Students will develop outreach strategies and learn how to prepare for informational interviews and coffee chats, both online and offline, with the aim of acquiring knowledge, building trust, and expanding professional networks.

Particular attention will be given to advanced search techniques, including Boolean operators and filter combinations, to identify decision-makers and hidden opportunities beyond standard job postings.

4. Interview Preparation

Leveraging LinkedIn connections, students will learn how to gather insider information on teams, roles, and company culture to improve interview performance. The course will also address how networking can lead to referrals and job opportunities, and how to incorporate insights into tailored application strategies.

Throughout the seminar, students will be encouraged to engage actively, participate in discussions, and apply the concepts to their own career scenarios. The approach is both analytical and experiential, combining structured content delivery with practical exercises and peer learning.

Contenus ESG / ESG-related Content:

Environmental-related content	Social-related content	Governance-related content
-	-	-

Objectifs de compétences / Competency Goals:

Transformative Management	Innovative Thinking & Problem Solving	Positive Leadership	Sustainable Business Practices
Students learn to adapt personal branding and outreach strategies to fast-changing job market conditions.	The course encourages critical analysis of career paths and company structures to design effective professional strategies.	Students are trained to build authentic professional relationships based on trust and mutual value.	The course promotes responsible career planning by emphasizing long-term alignment between personal goals and organizational culture.

MATERIEL PEDAGOGIQUE / TEACHING MATERIALS

Book | Influence Is Your Superpower: The Science of Winning Hearts, Sparking Change, and Making Good Things Happen, Chance (2022)

Research | Connected Leadership: How the most influential CEOs use LinkedIn, Brunswick Group (2022)

Podcast | The Diary of a CEO, Steven Bartlett

YouTube | Jeff H. Sipe, Practice Interviews Channel

Ranking | The Top Voices on LinkedIn, Annual Review

METHODES PEDAGOGIQUES / TEACHING METHODS

The seminar combines a brief lecture component with a highly interactive structure. Students will engage in real-time discussions to analyze the career patterns of industry leaders, participate in a structured debate on the nature of networking, and simulate the drafting of an ideal outreach message on LinkedIn. Live polls will be used to assess students' current use of the platform, and targeted exercises will explore how to prepare effectively for coffee chats and video interviews initiated through LinkedIn.

TRAVAUX ET ÉVALUATIONS / COURSEWORK & EVALUATIONS

Evaluation is based entirely on in-class participation and engagement. Students will be assessed on the quality and relevance of their contributions across four key interactive moments:

– Analysis of career patterns drawn from real LinkedIn profiles

– Active involvement in the group debate on the role of networking

– Strategic thinking demonstrated in drafting an outreach message

– Awareness and preparedness shown in designing a coffee chat or informational interview scenario

(Please detail the requested work and summarize grading principles in the proposed table)

Outil/support/mode d'évaluation Tool/method of evaluation	Durée et format Duration	Pondération dans la notation finale Weight in the final grading
Quality of in-class participation across all interactive segments	*3h*	*100%*

The Digital Sales Bootcamp

Enseignant(s) / Teacher(s): Edilio Canepa

Durée (en heures) **/ Duration** (in hours): 6h

Nombre de crédits ECTS / Number of ECTS credits: .5

Niveau / Education Level	Période / Period	Langue d'enseignement / Language of instruction	Effectif max / Max. class size	Mode / Teaching Mode
M2 & MS & MsC	S2	English	16	In-Person

Prérequis / Prerequisites: (in particular, for level 2, if a level 1 is required, please indicate it)

No prerequisite is required. However, students will greatly benefit from understanding marketing theory, as well as organizational design and behaviour.

SYNOPSIS / OVERVIEW

Do you like money and helping people? Do you like consulting but you're not excited to pump 100 hours a week?

Well, digital sales might just be a great place to start your career.

B2B digital sales is not your average salesperson stereotype. Today, start-ups and large corporations need extremely qualified and motivated individuals to deliver world-class consultative selling. That is, the ability to identify and quantify real business problems, and identify whether one's solution provide optimal ROI.

Join this course to get your hands on modern techniques to succeed in sales, interpersonal communication, and go-to-market leadership.

OBJECTIFS PEDAGOGIQUES / LEARNING OUTCOMES

- Learn how marketing and sales strategically connect in businesses
- Navigate CRM systems with confidence around the sales context
- Onboard on B2B sales positions knowing what critical questions to ask
- Handle early-stage customer conversations
  Build basic RevOps and Sales Excellence models to build or support GTM motions

DESCRIPTION DETAILLEE / DETAILED DESCRIPTION

Thèmes-clés / Key Topics:

This course covers sales processes, methodologies, and tools – as well as foundational elements of RevOps for individuals looking for Sales Excellence and GTM roles. Most of the course is delivered in a workshop format through which you will have the ability to dig deeper into topics such as: discovery, lead scoring, opportunity conversion, negotiation.

Organisation du cours – plan détaillé / Course organization – detailed outline:

1. From marketing funnels to qualified sales opportunities
    a. Workshop : Running a business all-up and defining key revenue metrics
2. Sales processes, methodologies, and tools#
    a. Workshop : Set up your HubSpot CRM instance
